

CALIFORNIA NEWS REVIEW

Ventura County Fair directors set the date for this year's exposition for October 1 to 5, inclusive. It had at first been suggested that the fair be held early in the summer.

A new 50 room hotel, to cost approximately \$50,000, is to be built at California Hot Springs, famous health resort located about 35 miles southeast of Porterville in the Sierra Nevada Mountains. Omer E. Lilly, hotel man of southern California, has been named manager of this resort by its owner, Mrs. Edith Williams of San Diego.

Gerald Sheehy has applied to the State Railroad Commission for authority to sell, and T. J. Horgan Company Inc. to purchase a public utility warehouse located in Watsonville.

Planting of three and one-half miles of scarlet Hawthorne trees from the Santa Rosa city limits south to Bellevue on the Redwood highway has been completed. The tree planting program is the first of a plan to be carried out by the Highway Commission and chambers of commerce along the route.

A. T. Hatch, who has been proprietor of Hotel Wolf at Stockton for the past two years, announced the sale of the furnishings and lease to Mr. and Mrs. J. W. Ensign of Los Angeles. It is said the transaction represented a consideration of \$300,000. Hatch stated he had been given the management of a \$500,000 estate left by an uncle, who died recently.

California's six State mental hospitals, two homes for feeble minded and three reform schools have a combined population of 18,260 according to a report filed with Governor Young by Earl E. Jensen, State director of institutions. The records showed 14,451 in the hospitals, 2,684 in the homes and 1,125 in the reformatories.

A short section of U. S. Highway No. 99, a few hundred yards north of the Newhall Tunnel, between San Fernando and Newhall, is now undergoing construction. The road is being widened at that point, and careful driving is advised by the Touring Department of the National Automobile Club.

Production of school textbooks in the State printing plant saved the State \$289,284.45 in 1929, Lyman M. King, director of the Department of Finance, has reported to Gov. C. C. Young. The number of textbooks produced during the year was the largest in the history of the printing plant, totaling 1,956,284 volumes, King reported. This exceeded the 1928 total by 324,477 volumes. King's report placed the total cost of printing and distributing the textbooks free to pupils at \$112,545.66. This included actual production costs, plus the 5 per cent depreciation surcharge, the royalty, and the Board of Education's overhead of 10 per cent for distribution.

It was estimated by King the cost of the books would have been \$601,810.11 had the State purchased them at publishers' wholesale rates. The saving effected was 47 per cent. In 1928, the saving was 36 per cent, and in 1927 it was 42 per cent. Two of the series of child-story readers, the primer and the first reader, cost the State 24 cents per volume for the primer and 27 cents per volume for the first reader, the report said. Had the State purchased these books instead of printing them, the price for the 174,797 primers would have been 51 cents each, while the 175,555 volumes of the first reader would have cost 54 cents each, it was declared.

Los Angeles offered to co-operate with Sacramento as the scene of the 1932 Olympic crew races in case no southern California water courses are available. The message was received by the Chamber of Commerce from William M. Garland of Los Angeles, chairman of the state Olympic games committee.

A water cooling tower 400 feet in length, 50 feet high and nineteen feet in width is being erected on the property of the Standard Oil Company at El Segundo, by the Atmospheric Cooling Company, of Maywood, this being the largest tower that has ever been contracted for on the Pacific Coast, with the local company. It will require 150,000 feet of lumber of complete it. The capacity will be 6500 gallons of water a minute. N. O. Fleming, former member of the board of trustees of Huntington Park, is vice-president of the company.

Another improved unit of the Mother Lode highway was assured when contracts were awarded Larson Brothers of Galt for grading and surfacing three miles in Calaveras County at a cost of \$45,494.

Survey of traffic conditions on state roads was under way by Eugene Bischoff, superintendent of the California highway patrol, to determine the quota of officers to be distributed on heavily traveled thoroughfares.

Stinson Aircraft Company of Chicago, is planning to establish a factory branch in California in the immediate future.

Articles of incorporation were filed with Secretary of State Frank C. Jordan by the Knight Templars Educational Foundation of California. The organization was formed for the purpose of creating and maintaining funds to be used for education of worthy persons. Directors named were William H. Waite, San Francisco, chief justice of the State Supreme Court; Robert Wankowski, Culver City; Albert E. Boynton, San Francisco; Andrew J. Copp Jr. of Los Angeles; Alfred Seale, Palo Alto; John H. Logie, Redlands, and Mattison B. Jones of Los Angeles.

Negotiations for the purchase of the Plaza Hotel at Fresno, for more than \$30,000 were completed by the H. R. Freeland Company of Los Angeles, according to Fred P. Black, owner of the property.

Protection work in the Santa Clara River, which involves jetties and channel deepening from Piru to Satcoy, a distance of 40 miles, is to start May 1. Agreements upon the work were lately effected by restoration committees of Ventura and Los Angeles counties, through both of which the river flows. The various protective works will cost approximately \$400,000.

The State of California was compelled to go into court to secure right of way for realignment of the Golden State Highway near Pixley, three small parcels of land being needed as a-1 agreement with the owners not being effected. It was the first time in years the State has found it necessary to condemn. The court allowed \$529,500 damages for the three small odd-shaped parcels of land.

A wildcat well in west side oil fields, being drilled by H. L. Whiston, of Bakersfield, was reported to have come in with a production of 1000 barrels a day at a depth of 5038 feet. All other wells in the district are of shallow depth and only produce 15 to 20 barrels per well.

Construction on the Union Oil Company's new pipe line from Kettleman Hills to Port Avila near San Luis Obispo was under way with the arrival of fourteen cars of pipe. The new pipe line will be used to carry heavy gravity oil from the Continental-Marl well to the coast.

Contract for an underground crossing under the Northwestern Pacific railroad tracks at Loleta, Humboldt County, on the Redwood highway, was awarded to Fred J. Maurer & Son, Eureka, for \$10,880.40 by the State Division of Highways at Sacramento.

"Dog days" are in the offing for Healdsburg, following a meeting of the city council at which it was decided that two city ordinances requiring dogs to be kept off the city streets will be rigidly enforced.

Announcement was made of the plans for a new junior high school for Pittsburg, to be erected adjoining the present high school, at a cost of \$136,000. Bids will be let as soon as possible, and it is expected that construction will have started by the end of April. This building is a part of a spring school building program in a bond issue last year, and it will be followed immediately by a new elementary school.

Public liability and property damage insurance on the six in gasoline roller used by the El Cerrito street department has been ordered by the board of trustees, it has been announced by Phil A. Lee, street commissioner.

A recent rampage of the roller, in which it took its driver for a wild ride down a hillside, over fields, and crashed into the front of a private home, prompted the board's action.

Although production of gold in California dropped from \$11,671,018 in 1927 to \$10,785,115 in 1928, the State continued to account for approximately 26 per cent of the nation's output, Fred G. Stevenot, director of natural resources, has reported to Governor Young. All of the fifty-eight counties contributed to the mineral output, he said, and there were fifty-four minerals produced, exclusive of those classified as gems. More petroleum was produced in 1928 than in the previous year, the report showed, but the value was lower, due to the low price of crude oil prevailing during the year.

Production increased from 231,195,774 barrels to 231,811,465 barrels. Value decreased \$30,786,818, it was shown. Production of natural gas increased from 254,686,940 cubic feet, worth \$20,447,294, in 1927, to 260,837,116,000 cubic feet, valued at \$22,260,947 in 1928, Stevenot reported.

Economic conditions in California during January were closer to normal than any other section of the United States, and in many instances, California showed a greater general prosperity than any other state, according to a survey made by the California State Chamber of Commerce.

Building activity during January showed a greater progress in California than for the rest of the country and the total value of building permits issued during the month in fifty-two California cities totaled \$16,874,969. This was 45.2 per cent above the December value. The total for 566 representative cities and towns in the United States for the first month of this year showed a loss of 46 per cent from January, 1929, and 17 per cent from December last year, the report states.

Authority was granted by the State Railroad Commission to Zuckerman Bros., doing business under the name of Merchants' Transportation Company, to transfer a freight boat line operating between San Francisco, Oakland, Sacramento, Stockton and intermediate points, to Weyl-Zuckerman & Co. for \$12,483.93.

Two miles of living Christmas trees have been planted along the Watsonville-Santa Cruz highway, by the Watsonville American Legion Post. The trees will mark the beginning of the proposed "Twenty Miles of Living Christmas Trees" between the two cities.

Future California will have a million persons with traces of Indian blood in their veins, according to Fred A. Baker, who is investigating claims for Indian pensions against the United States government. Baker says Indian girls he has interviewed at San Jose have been pretty blondes, that situation being brought about by intermarriage between the 49-ers and Indian women in the early days.

St. Patrick's Day Dinner Held At The Bearce Home

The Junior Christian Endeavor society enjoyed a St. Patrick's Day dinner at the home of Mr. and Mrs. H. H. Bearce on Hoover street last Monday evening, March 17th, which proved to be one of the most successful and enjoyable events of the season.

As the children marched in they were each given a green cap to wear, and this coupled with the decorations on the table, which fitted the season, made the affair assume quite a festive air.

Following the dinner and while still seated around the table Mrs. Snover read several Irish stories, and this was followed by the telling of stories and jokes by those present, all of which brought forth a great deal of laughter and fun.

Those present were Kathryn Morris, Carol Williams, Margaret Domepe, Charlotte Van Riper, Wona Lu Pickard, Haruko Okudo, Vivian Love, Lois Ledford, Eleanor Lightbody, Dorothy Wolfe, Cecil Snover, Dan Boardman, Sonny Buckhout, Stanford Huzbrun, Basil Cain, Vincent Cleveland, and Patrick Gilmer.

LOCAL MEN PAINT UP FOR THE COMING SPRING BUSINESS

J. E. Cooper, who is operating the Boggess Tire Service plant opposite the Central School, is having his place of business given a brand new coat of the famous Shell Oil Company's "yellow paint and red trimmings," thus adding to the beauty of his buildings and helping to advertise one of the products he carries. Cooper handles the Shell Company's gasoline and oils as well as the Famous Goodyear automobile tires, and these two commodities both famous among those who know, coupled with his courteous service assure all patrons of satisfaction.

Van Fleet & Durkee's Service Station at the corner of Santa Cruz avenue and the highway is also receiving the attention of the Shell Company's paint department and is resplendent in a bright new coat of yellow paint with red trimmings. At this station, operated by Charles Palmer, the patron is assured of prompt and courteous service.

Bert Clute, former station agent for the Southern Pacific Company was a local visitor Wednesday.

California showed a greater general prosperity than any other state, according to a survey made by the California State Chamber of Commerce. Building activity during January showed a greater progress in California than for the rest of the country and the total value of building permits issued during the month in fifty-two California cities totaled \$16,874,969. This was 45.2 per cent above the December value. The total for 566 representative cities and towns in the United States for the first month of this year showed a loss of 46 per cent from January, 1929, and 17 per cent from December last year, the report states.

Authority was granted by the State Railroad Commission to Zuckerman Bros., doing business under the name of Merchants' Transportation Company, to transfer a freight boat line operating between San Francisco, Oakland, Sacramento, Stockton and intermediate points, to Weyl-Zuckerman & Co. for \$12,483.93.

Two miles of living Christmas trees have been planted along the Watsonville-Santa Cruz highway, by the Watsonville American Legion Post. The trees will mark the beginning of the proposed "Twenty Miles of Living Christmas Trees" between the two cities.

Future California will have a million persons with traces of Indian blood in their veins, according to Fred A. Baker, who is investigating claims for Indian pensions against the United States government. Baker says Indian girls he has interviewed at San Jose have been pretty blondes, that situation being brought about by intermarriage between the 49-ers and Indian women in the early days.

A \$50,000 hangar will be erected at Alameda airport immediately as a part of a \$3,500,000 construction program, it was announced by Curtiss Airports, Inc.

Statement Made By Eugene J. Crane

Eugene J. Crane, candidate for city trustee at the election to be held on April 14, 1930, issues following statement:

The Menlo Park Citizens League, which is the body of citizens who requested that I become a candidate for the office of City Trustee, has asked that its candidates place themselves definitely on record in regard to where they stand on certain important subjects that are at present before us, and I shall endeavor to do so.

I have seen Menlo Park grow from a village of 300 to its present size, and have resided here continuously during that time, and I have unbounded faith in its future, provided its government is in the hands of the right men. We have, in my opinion, the most unusual situation of any City on the Peninsula, and therefore many difficult problems to solve, and I pledge myself to consult at all times with our citizens as to their wishes on civic matters. I shall also endeavor to learn from the officials of other cities, and to profit from their experience.

As a business man, I understand the problems and the difficulty of conducting a business in a City of this size, and I shall work earnestly and sincerely with our merchants to help them build up creditable and profitable stores. Every business man strives to give such courteous treatment to his patrons that they will remain here to do their buying, and every branch of our City government must co-operate with them by giving both resident and traveler such courtesy and efficient service that they will be glad to come again. As a Trustee, I shall do everything in my power to at once have adopted such ordinances and rules as to adequately protect the life, limb and property of every man, woman and child within our city limits, and to that end I shall move at once to establish every branch of our government upon the high standard maintained by our adjoining Cities of Palo Alto and Atherton.

My attitude in regard to street improvement has not changed since I worked to have Oak Grove and Laurel streets improved some 14 years ago, and I believe now that every street in Menlo Park should be similarly improved. As your Trustee, I shall co-operate with the property owners in every part of the City whenever they desire any improvements.

In short, it is my conviction that you elect City Trustees to serve you and to carry out legally your wishes, and that their duty is to adopt the ordinances and rules that are considered necessary to protect you and to further your interests.

It is also their function to appoint certain employees whose duty it is to carry out the provisions of these ordinances under the direction of the Trustees.

It is the duty of both the Trustees and their appointees to serve you, and not their right to dictate to you.

Signed, EUGENE J. CRANE.

PRESBYTERIAN CHURCH NOTES OF INTEREST

The Intermediate Christian Endeavor Society enjoyed a social good time at the Manse on last Monday evening. Those attending were George Aabel, Paul Bearce, Rose Bowles, Fannita Jacobsen, Effajean Lightbody, Olive Annis, Bobby Cooper, Charles Baker, Wilfrid Walker, Lola Lightbody, Janice Paulman, Nancy Furnival, Games and refreshments were the order of the evening.

The Ladies' Auxiliary will meet at the home of Mrs. Alexander Walker on Thursday afternoon, March 27. All ladies of the congregation are cordially invited.

The Senior Christian Endeavor society will enjoy a party this evening at the Frank Johnson home in Stanford Park.

On Sunday the pastor will preach on the following subjects: "Our Duty to Play in the Big Games of Life," and "The Compulsion of Memory."

John Glunz has announced that he will run for city trustee.

Native Daughters To Hold Benefit Card Party April 1

On Tuesday evening, April first, the members of Menlo Parlor, Native Daughters of the Golden West will hold a big "Benefit Card Party" for the homeless children, in the auditorium of the Central Grammar School, on the highway Menlo Park. This is an annual event with the Native Daughters and is one that is worth of the utmost support of all who are interested in the young of this state, who happen to be homeless.

The taking care of, and placing in good homes, of homeless children, regardless of race, color or creed, is one of the duties of this great California order, and how well it has done its work can be seen by reports that are issued from time to time.

Tickets have been issued for the big event and the price of admission is only 25 cents. At this price any one can easily do his or her bit by taking a ticket, whether they play cards or not and as the money is used for such a worth purpose the Native Daughters will without a doubt received the unanimous support of the peninsula residents.

A large number of prizes have been given by the merchants and the committee in charge is working hard for the success of the affair, with the aim of aiding the even increasing number of homeless kiddies, who will in time be the men and women of the "Golden State."

ELIZA WEEDEN ANSWERS CALL OF THE GRIM REAPER

Miss Eliza Weeden, well known local resident passed away last Friday following a short illness, and her death came as a decided shock to her family and many friends on the peninsula.

Miss Weeden was born in San Francisco, but came to Menlo Park when but a small child, with her parents. She was for many years bookkeeper for the firm of Duff & Doyle and made a host of friends through her kindly and courteous treatment of all with whom she came in contact.

The funeral services Monday morning from the Church of the Nativity were attended by a large number of sorrowing friends and relatives. Interment was in Holy Cross cemetery.

Miss Weeden is survived by three brothers, W. H., Charles and Edward Weeden, and a sister, Mrs. D. Driscoll, all of whom reside in Menlo Park.

"All nationalities, we know no race, creed or color; women, men who are desirous of preparing for the detective profession, communicate with Scotland Yard Detective Bureau, Gorman Bldg., 56 Division St., Albany, N. Y."

Headmaster Lowry S. Howard of the Menlo School for Boys is leaving today for a tour of the eastern states where he will visit some of the largest educational institutions, with a view to finding new methods of improving the local school, whose students represent a large number of foreign countries.

Last Saturday night's St. Patrick's Day entertainment given in the Hall of the Nativity was one of the most successful affairs ever held in Menlo Park. Standing room was not to be had in the hall.

Dr. J. H. Raymond is in Los Angeles, on business and expects to be gone for a month.

Menlo Park Parent Teacher Association will hold its regular monthly card party in the auditorium at the Central school next Thursday evening.

HATCHING EGGS 2c

Bring us your Reds, Rocks, Brahmas and Leghorn Eggs—we will commercially incubate them at 2c an egg in case lots. Visit our plant, note its sanitary appearance. Frier, Rooster, Capon Raisers are ordering Brahma chix in thousand lots now. How about you? Chix 15c up.

Federer Brahma Farms, Oso and Straphern St., Owensmouth, Calif.

The new motor trains of the S. P. Co. are proving very popular.

POINT BLANK

By Laurence Campbell
TRUSTEE DALE PUBLISHES
CAMPAIGN PLATFORM

Declaring himself in favor of zoning, segregation of negroes and a thorough study of street improvements. Trustee W. E. Dale has announced his reasons for seeking re-election in the coming election. That each candidate should make a public statement of his platform was urged in this column sometime ago. It is to be hoped that other candidates will follow the example of W. E. Dale in this matter.

When mystery surrounds a candidate's qualifications or his platform, thinking citizens may wonder why, but when a man comes out in the open he shows a real respect for the voters.

WILL ROLPH RUN FOR GOVERNOR?

This is the question politicians in northern and southern California are asking? If he does not run it will leave the field open to Young and Fitts, if Rolph does run the issue of prohibition will be introduced into the campaign. While the Literary Digest is attempting to discover national sentiment on this social reform more than the prohibition issue is involved.

As far as the mayor of San Francisco is concerned, we may ask if his record of achievement is good enough to make him governor. The nomination of Rolph might be a good thing for San Francisco, it might be a splendid thing for the California Democrats, but what about the taxpayers?

MIGHT NAME NEW PLANET AFTER WILL ROGERS

The astronomers are all hot and bothered about naming this new planet. They won't name it after the discoverer, or call it Neptune, Junior, or designate it as Frigidarea. Passing by the football, motion picture, and pugilistic celebrities ignoring Lindbergh, Helen Wills Moody, and Calvin Coolidge, there seems to be little to do but to name it after Will Rogers.

There is one question to ask however. Would this planet be big enough to deserve the name of Will Rogers.

BYRD—THE WORLD'S GREATEST AVIATOR

There are air heroes of war and air heroes of peace, but the greatest of these Rear Admiral Richard Evelyn Byrd. Others have been more popular, have been more spectacular, have been more widely known, but the aviator returning from the Antarctic continent outshines them all as an explorer of the skies. For any one of his notable achievements, a man might well be famous, but even now he is not content. Byrd has crossed the North Pole, the Atlantic ocean, and the South Pole, yet he is eager to continue his scientific explorations.

Let the boys of today, the heroes of film and football field pattern themselves after a real hero, Admiral Byrd.

SLOW AS MOLASSES IN ANACHTICA

It looks like some of the senators are expecting Santa Claus to finish the tariff about next Christmas. When another St. Patrick Day rolls around in 1931 we may still hear of these congressional garrulities that are the concomitant of senate legislation. Archeologists sometime wonder what became of the Mayas of Yucatan, the residents of Atlantis, or the colonists at Roanoke. It seems evident that they placed affairs in the hands of some legislative body like the Senate.

Until the methods of legislation attain the degree of progress reached in business, industry and science, we will continue to wonder what is doing in Washington. The only reason some of the members of Congress get there is because they couldn't run a business of their own. That's what makes it hard for the men who can think straight.

C. E. McPherson has just returned from a trip to San Diego where he went to visit his son, George, who is attached to the U. S. S. Melville. McPherson reports having had a fine trip despite the storm of last week, and states that George is now transferred to the hospital department of the ship.

Count To One Hundred

Well meaning legislators proposed that future wars be declared only after nation wide referendum. Thus would armed conflict occur only when the citizens voted in favor of self defense. And thus would peace be assured to the American people.

Now isn't it curious that this plan should originate with those who have opposed plans for co-operation between nations? However let us pause to see how this plan would work.

The United States and Graustark are one the verge of war, but first let's see whether or not we want to go to war. The army, navy, and air forces would wait. Executive department of the government would wait. Business men concerned about the future of commerce and industry would wait. But would Graustark wait.

Meanwhile we would read about the problem in the newspaper. The Literary Digest would take a poll to see what wouldn't happen. The talkie, the

radio, and Congress, the republic's three noisiest inventions, would take up the issue. After a number of weeks we would vote. Of course, Graustark would twiddle its thumbs during the interval.

If we decided to go to war Graustark would wait until we could get warmed up. If we didn't care to fight, the Graustarkians would be nice enough to ignore the statements issued by the war enthusiasts in the United States. Just what would happen if both nations used the referendum with different results hasn't been explained.

Doubtless bankers will hereafter take a vote on whether or not to ring the burglar alarm when bandits apply for cash at the point of a gun.

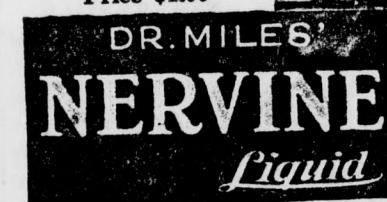

WHEN you start at sudden noises, worry over trifles, can't bear the noise that children make, feel irritable and blue—ten to one it's your nerves.

Don't wait until your overwrought nerves have kept you awake half the night and paved the way for another miserable day. Take two teaspoonfuls of Dr. Miles' Nervine and enjoy the relief that follows. Take two more before you go to bed. Sleep—and wake up ready for the day's duties or pleasures.

Dr. Miles' Nervine is now made in two forms—Liquid and Effervescent Tablet. Both are the same therapeutically.

Liquid or Effervescent Tablets at all drug stores.

FOR SALE BY HELMORE & CO.
 10625 E. 14th St. Oakland, Calif.
 Or J. T. McDonald & Co., 466 San Mateo Avenue, San Bruno.

Ober, Tet.

Half acre, new up-to-date house, never been occupied, equipped with gas stove, and electrical hot water heater. Kitchen has new linoleum on floor. Has own gas plant operated by electricity or can have natural gas furnished by Pacific Gas and Electric Co. Large living room, 2 bed rooms very roomy with large closets, bath, hot and cold water. Garage, electricity phone service if desired. Fruit trees. Price for quick sale \$3800 originally listed by owner at \$4300. Terms \$300 down, balance \$35 a month. Can have another half acre for \$500 extra. Water free.

D. Lot 70' x 190'. House 4 rooms and bath, sleeping porch. Gas and electricity. City water. Chicken house accommodates 500 chix. 2 Car garage. Feed house. Price \$3300 easy terms can be arranged. Has over 500 white leghorn pullets, which can be had for \$500 extra. This place is within 2 minutes of Haywards.

E. Four acres, all set in apricot trees, some almonds, pears and grapes. Has some 1300 young pullets. Chicken sheds, feed room, elec. pump, large barn. Garage with floor. Gas and electricity. Has own well. House has large living room, dining room, 2 bedrooms, bathroom and kitchen. Taxes not over \$100 a year. Price is \$18,500. Down payment \$5000, balance arranged. 1 mile from Haywards R. R. station, schoolhouse close by.

G. Lot 100 x 260 ft. Price \$4000 Down payment \$1000. Balance at \$35 a month. House consists of living room, 2 bedrooms, bathroom with toilet only installed. Automatic electric pump and own well, 2 car garage. New up to date chicken house.

H. One acre. Large chicken house all modern improvements accommodates 400 chix, 2 runs. Separate feed house. Forty assorted fruit trees. Berries, orange and lemon trees bearing. Grapes. Modern house (stuccoed) with hard wood floors. Large living room with open grate, dining room, 2 big bedrooms, kitchen and bathroom. Kitchen has electric stove and hot water heater. Price placed especially low for a quick sale \$6500, will be advanced in spring. Mortgage of \$3100 has seven years to run, but can be paid off at any time without penalty. Mortgage payable at under \$30 a month, which includes both principal and interest. Equity of \$3400 cash. This is a particularly fine buy, which can be strongly recommended. Land exceedingly rich and productive, easily worked, and kept in splendid shape. Property has double frontage one on county road. Within half a mile of railroad station, schoolhouse and postoffice.

J. Two and a half acres. House is modern, living room, 2 bedrooms, bathroom and kitchen, electric stove and electric hot water heater go with place as also does linoleum. Varied fruit trees, apples, peaches, apricots, cherries, plums, pear and 2 fig trees. Outside store room, 2 unit chicken house, latest improvements, garage. Price \$9000. Bank loan of \$3400 at 7 per cent. Terms arranged on equity to suit. Will sell property with one, one and a half or two and a half acres, as desired, with \$1000 an acre off for land not desired.

K. 3-4 of an acre in San Leandro city limits, 5 minutes walk from center of city. House consists of large double living room, kitchen, very large glassed in porch with southern exposure about 16' x 25', wash porch with double set of wash trays, 2 toilets, bathroom and three bedrooms. Four unit chicken houses accommodate easily 800 chickens. Rabbit hutches for 50 does and 5 bucks. Have at present time 80 chickens and 55 rabbits, which go with place. Many fruit trees including lemon, pear, apple, apricot, cherry, peach, mammoth black berry, grapevine. Cement floor in the chicken house. Double garage. Good cement basement. Price \$8000. \$2000 down. Balance on mortgage with private party, which calls for its being paid off at rate of \$45 a month, including both principal and interest, the later being 7 per cent. This place with above stock on it bring in an income of \$60 net, which if stocked to capacity would easily yield \$300 a month. This property being on one of the best streets in city, and close to business center, is bound to greatly advance in value.

AA 1-2 acre 100' frontage on paved highway by 200 ft. deep. Close to Haywards. 4 room house with enclosed porch, 3 room finished, chicken house to accommodate 500 chix, rabbit hutches for 30 rabbits, well, tank house with one room, windmill and electric motor, so never without power for pumping. Double garage, 20 mixed fruit trees (pears and apricots). Price \$3700. \$400 down. Balance \$35 a month, includes both principal and interest.

BB Lot 65 x 188 a little over 1-2 of an acre in apricots, 3 room rustic house gas and electricity, one and a half miles from Haywards. Well and hand pump. Price \$1800. Down payment \$200, balance \$30 a month includes both principal and interest.

CC Slightly over 1-3 of an acre. Actual size of lot 80' x 200'. Modern house. Hardwood floors. Living room, 2 bedrooms, kitchen, breakfast nook, sleeping porch. Price \$3700. \$700 down. Balance \$35 a month which includes both principal and interest.

DD One acre. House 4 rooms, pump and well. Price \$2600. \$200 down. Balance about \$25 a month includes both principal and interest. Chicken house will have to be built.

EE One acre with 240 ft. frontage on paved highway close to San Lorenzo Sandy loam soil, all in rhubarb, 5 room Magnesian house, hardwood floors, garage. Chicken house will have to be built. Price \$7000 or \$6700 cash. Terms

\$650 down, balance \$50 a month.

58 acres right in town of San Lorenzo. Fronts on two main paved highways, approximately 2000 feet by 1100 feet. All level land, very rich garden soil, producing apples, pears, plums, cherries, rhubarb, pumpkins and all kinds of vegetables. Large barn and many outhouses. Electric light, gas and telephone service. House modern, commodious and in fine condition. The best climate in California, never too hot or cold. An ideal place to subdivide for building or for small chicken farms, or hold for investment for certain increase in value. No exchanges considered, but terms can be arranged.

ACREAGE

Acreage in Castro Valley on paved highway, price \$1500 an acre. One third down, balance at \$20 a month, includes both interest and principal. Also one acre with well on it at \$1600. One third down, balance \$20 a month, includes both principal and interest.

One, two, three or more acre plots for sale in Alvarado. Within two minutes walk of bank and center of town, which is unincorporated. Price \$1000 an acre. Terms arranged if desired.

Two acre plots or more, level and very fertile land on Highway, within 3 minutes drive of City of Haywards. Gas, electricity and phone service are available. Price \$1500 an acre. Terms 25 per cent down, balance to suit.

Backache

If functional Bladder Irritation disturbs your sleep, causes Burning or Itching Sensation, Backache or Leg Pains, making you feel tired, depressed and discouraged, why not try the Cystex 48 Hour Test? Don't give up. Get Cystex today at any drug store. Put it to the test. See how fast it works. Money back if it doesn't bring quick improvement, and satisfy you completely. Try Cystex today. Only 60c.

Announcing Another P.G. and E. Electric Rate Reduction

\$2,400,000.00 Saving to Consumers

Now, electric rates for consumers of the Pacific Gas and Electric Company are reduced over Two Million, Four Hundred Thousand Dollars a year.

Lighting rates are cut to a maximum rate of 4 1/2 cents per kilowatt hour for incorporated areas, with a similar reduction in all areas.

The new rates are of greatest benefit to the small consumer—the residence user, stores and offices. Substantial reductions have been made in commercial, industrial and agricultural power rates. Street lighting rates are reduced.

Domestic combination rates for consumers using lighting service and in addition having electric appliances for heating and/or cooking, are as low as 1 1/2 cents per kilowatt hour. The new commercial lighting schedules provide for lighting rates as low as 2 cents per kilowatt hour.

These new schedules providing lower electric rates are designed to encourage liberal usage of electricity at low cost. The new rates are among the lowest obtainable anywhere.

ELECTRICITY IS CHEAPER — YOU CAN USE MORE — MAKE IT YOUR SERVANT

Let electricity brighten the gloomy corners. Let it do the cooking, ironing, washing. Let it sweep the floors, operate the electric fan, drive away chills. It will percolate the coffee, make the toast, keep food warm or cool and wholesome.

Modern electric appliances bring comfort, convenience and economy.

Public Service of the first order

The young women who operate the telephone switchboards in this office are in a public service of the highest order.

Their task is to bring human voices together, on an instant's notice, tho the speakers be miles apart. Theirs is to watch carefully for the slightest imperfections in communication. Theirs is to be deft-fingered, courteous, obliging; to realize the enormous importance that may lie behind any call, at any hour.

Every telephone call that these young women handle is a personal transaction with valued customers of this company.

NOTICE INVITING SEALED PRO- POSALS

No. 29-1

Pursuant to statute and resolution of
the City Council of the City of Menlo
Park directing this notice, said City
Council hereby invites sealed proposals
or bids for doing the following work
in said City, to-wit:

SECTION 1.

THAT College Avenue and Cam-
bridge Avenue from the northeasterly
line of Arbor Road to a line drawn
across said streets, which line is paral-
lel with and at a distance of 50 feet at
right angles southwesterly from the
centerline of El Camino Real; Har-
vard Avenue from the northeasterly
line of University Drive to a line
drawn across said avenue, which line
is parallel with and at a distance of
fifty (50) feet southwesterly at right
angles from the centerline of El Cam-
ino Real; Roble Avenue, Florence
Lane and Alice Lane from the south-
westerly line of University Drive to the
southwesterly termination of said
streets; University Drive from the
southeasterly line of College Avenue to
the northwesterly line of Stanford
Avenue; including all street intersections
within such boundaries, be im-
proved as follows, to-wit:

(a) By grading all of said streets for
the full length and full width thereof,
and to the cross-sections as all are
more particularly shown upon the
plans, profiles, detailed drawings and
specifications hereinafter referred to
herein.

(b) By constructing combined hy-
draulic cement concrete curbs and
gutters on both sides of said streets
for the full length thereof and of the
forms, sizes, dimensions and in the
particular locations as all are more
fully shown on the plans, profiles, de-
tailed drawings and specifications
hereinafter referred to herein.

(c) That the roadways of all of said
streets for the full length thereof and
for a width extending between the
herein proposed concrete gutters be
paved with an asphaltic concrete
wearing surface three (3) inches in
thickness, laid upon a waterbound
rock macadam base pavement four
(4) inches in thickness as all is more
fully shown on the plans, profiles, de-
tailed drawings and specifications
hereinafter referred to herein.

(d) That four (4) inch diameter
salt-glazed vitrified iron-stone pipe
laterals or side sewers be constructed
in each of the said streets extending
from the existing main sewers in said
streets to the property lines on each
side of said streets, and to the number
of one (1) such lateral or side sewer
to each lot fronting on said main
sewer except where such lateral or side
sewers are already constructed; all to
be of the forms, sizes, dimensions,
depths and to the particular locations
as all is more fully shown on the
plans, profiles, detailed drawings and
specifications hereinafter particularly
referred to herein.

(e) Also that a hydraulic cement
concrete pipe storm water sewer with
red burnt brick storm water catch
basins capped with cast iron frames
and gratings be constructed in Uni-
versity Drive and College Avenue, ex-
tending from San Francisco Creek op-
posite the termination of University
Drive; thence along University Drive
to College Avenue; thence up College
Avenue to and including the intersec-
tion of Yale Road and College Avenue,
all to be of the forms, sizes, dimensions
and in the particular locations as all
are more fully shown on the plans,
profiles, detailed drawings and spec-
ifications hereinafter particularly re-
ferred to herein.

SECTION 2.

All the hereinbefore mentioned
and described work and improvements
shall be constructed at the places, in
the positions, locations and of the
sizes, dimensions and material, and in
the manner as shown and described on
the plans, profiles, detailed drawings
and specifications therefor heretofore
adopted by the City Council of the
City of Menlo Park, on the 26th day
of November, 1929, by Resolution
Adopting Plans and Specifications No.
29-1, and now on file in the office of
the Clerk of said City, to which plans,
profiles, detailed drawings and spec-
ifications reference is hereby made for
the full and detailed description and
location of said work and improve-
ments, and for further particulars, and
the same are made a part hereof.
There is hereby excepted from the

above mentioned work and improve-
ments any thereof that is or are al-
ready done to the line and grade as
shown on the plans, profiles, detailed
drawings and specifications herein
mentioned. The hereinabove named
streets, roads and avenues are all as
shown and delineated upon that cer-
tain map of the City of Menlo Park en-
titled "Map of the City of Menlo Park,
San Mateo County, California", ap-
proved and adopted July 23, 1929, by
the City Council of the City of Menlo
Park, which said map so approved and
adopted is on file in the office of the
City Clerk of the said City of Menlo
Park.

The width of the streets, avenues
and roads herein mentioned and
described and the width of the road-
ways of said streets, avenues and
roads, are to be and are as shown on
the plans, profiles, detailed drawings
and specifications hereinafter partic-
ularly referred to herein.

SECTION 3.

All of the said work shall be done to
the lines and to the grades shown on
the plans, profiles, detailed drawings
and specifications above mentioned,
which grades are hereby adopted as the
official grades to which the herein
proposed work and improvements shall
be done. Said grades are referred to the
official base and datum for said City
established by said City Council on
November, 26, 1929, being elevations in
feet and decimals thereof above same.

SECTION 4.

And whereas, said contemplated work
and improvements, in the opinion of
said City Council, is and are of more
than local or ordinary public benefit,
said City Council hereby makes
the expense of said work and im-
provements chargeable upon a
district, which district said City
Council hereby declares to be the
district benefited by said work and im-
provements and to be assessed to pay
the cost and expenses thereof; which
said district is delineated and shown
upon a map entitled "Map Showing As-
sessment District Under Resolution of
Intention No. 29-1", approved and
adopted by the City Council November
26, 1929, and which map is on file in
the office of the City Engineer of said
City, and also in the office of the City
Clerk of said City, and to which said
map reference is hereby made for an
accurate and complete location of said
assessment district.

SECTION 5.

Said City Council hereby further de-
clares that all streets, avenues, lanes,
alleys, courts and places and public
ways contained within the above de-
scribed district, the same being in use
in the performance of a public func-
tion as such shall be omitted from the
assessment hereafter to be made to
cover the cost and expenses of said
work and improvements.

SECTION 6.

Notice is hereby given that serial
bonds to represent unpaid assessments,
and bearing interest at the rate of
seven (7) percent per annum, will be
issued hereunder in the manner pro-
vided by the Improvement Bond Act of
1915, as amended, the last installment
of which bonds shall mature nine years
from the second day of July next suc-
ceeding ten months from their date.

SECTION 7.

Except as hereinabove otherwise pro-
vided for the issuance of serial bonds,
all of the above proposed work shall be
done in pursuance of the Improvement
Act of 1911, as amended.

Reference is hereby made to Resolu-
tion of Intention No. 29-1 of said City
Council declaring its intention to order
said work to be done, for further par-
ticulars, which said resolution is on
file in the office of the Clerk of said
city, and reference is hereby further
made to the specifications for said
work on file.

All proposals or bids shall be accom-
panied by a check payable to the City
of Menlo Park, certified by a responsi-
ble bank for an amount which shall
not be less than ten percent of the

New S. F. Bus Route Is Opened

Faster transportation through penin-
sula communities to and from San
Francisco became a reality this morn-
ing when the first motor coaches of
the Peninsula Rapid Transit Company
and Pacific Auto Stages, Inc., began
operations over the Bayshore highway.

The occasion was marked by a christ-
ening ceremony held in front of the
City Hall at San Francisco, at which
Mayor James Rolph, Jr., officiated
and congratulated the motor coach
companies and civic leaders of penin-
sula cities on the new service. He
expressed himself as especially grati-
fied that San Francisco's municipal air-
port, Mills Field, heretofore inaccessi-
ble except by private car, had at last
obtained fast frequent transportation.
Supervisors E. J. Spaulding, Carl
Miles and Jefferson E. Peyser of the
airport committee, assisted Mayor
Rolph in the ceremony.

Immediately following the christen-
ing, the supervisors together with civic
leaders of the peninsula, got into a new
Peninsula Rapid Transit Company mo-
tor coach and made the first official
trip over the Bayshore highway, and
were entertained at luncheon at the
Benjamin Franklin Hotel at San Ma-
teo.

The new service will cut fifteen min-
utes from the running time between
San Francisco and San Mateo and
Burlingame, as well as other communi-
ties down the peninsula. The motor
coaches will operate from 6 a. m. on a
thirty minute schedule throughout the
day until 9 p. m. and then hourly until
12 o'clock.

THE CENTER OF THE UNIVERSE

(By Leroy V. Brant, San Jose Insti-
tute of Music.)

It appears that Vienna is no longer
the musical center of this world. That
center is travelling, and it is
travelling from Europe to America.
Here are the witnesses:

Comes one John Smallman. He is a
musician from Los Angeles. He orga-
nized an "A Cappella" choir, that is to
say, a choir that sings without instru-
mental accompaniment. This is the
very highest type of music, by the
way, the final word in artistic endeavor.
I have heard much of cappella
singing, choirs including the famed
aggregate of the proposal, or by a bond
for the said amount and so payable,
signed by the bidder and two sureties,
who shall justify, before any officer
competent to administer an oath, in
double the said amount, and over and
above all statutory exemptions.

Said proposals or bids shall be de-
livered to the clerk of said City Coun-
cil of said city, on or before the hour
of eight o'clock P. M. on Wednesday
the 2nd day of April, 1930, said time
being not less than ten days from the
time of the first publication and the
posting of said notice of said work and
inviting sealed proposals, on which day
and hour all proposals or bids will be
publicly opened by said City Council.
Dated: March 11th, 1930.

FANNIE I. KURTZ,
Clerk of the City of Menlo Park.

Russian choir which comes from the
land which really is supposed to have
developed such art to its final heights,
but Smallman's work is superior to all
of them.

Comes Henry G. Weber, of the Chi-
cago Opera Company. He has just
been invited to conduct opera in Milan,
Italy, the home of operatic art. Imagine
Italy inviting an American to show her
how to produce her operas!

It is stated that The New York Phil-
harmonic Symphony is to tour Europe
this season. Imagine our orchestras
playing in the theaters and opera
houses that knew Beethoven, Mozart
and Brahms.

Truly it appears that the star of
empire has travelled afar in a wester-
ly direction, and that its benignant
rays have focussed on this fair land
of ours. We may well be proud that
such is the case, always remembering
that every advantage carries its bur-
den of responsibility, and being there-
fore sure that we are worthy of this
high honor.

The office of J. J. Harcom reports
business as being exceptionally good.
There are many inquiries for property,
both improved and unimproved.

NOW!

New Service
over

BAYSHORE HIGHWAY

Now, for the first time, you can
go between San Francisco and
San Jose over the beautiful
Bayshore Highway by Motor
Coach. Roomy, comfortable
coaches now leave the termi-
nals at San Jose and San Fran-
cisco every half hour during
the day, going by San Mateo,
Burlingame, Mills Field and
South San Francisco. There will
be no change in present local
service via Daly City and
Colma.

Government Sponsors Duck Census

To ascertain if water fowl are increasing or decreasing, the United States Department of Agriculture has appointed bird observers in practically every county of the country to report regularly on the number and species of ducks feeding in their respective sections. Above—An official in northwestern Oregon "counting noses" of the ducks on a nearby lake. He is standing beside his new series Pontiac Big Six, used in this work. Below—A typical government-protected lake in Oregon where water fowl may feed unmolested. Inset—The Black Crowned Night Heron—a rare species in the Northwest—which was observed this year by the government bird men.

NOTICE OF ELECTION

Notice is hereby given that a general municipal election will be held in the City of Menlo Park on Monday the fourteenth day of April, 1930, for the following officers:

Three (3) Members of the City Council of said City each for the full term of four (4) years;

One (1) Treasurer of said City for the remainder of the unexpired full term of four (4) years.

There will be one voting precinct for the purpose of holding said election, consisting of a consolidation of the regular election precincts established for holding State or County elections, which said consolidated voting precinct shall comprise State and County precincts, numbers one (1), two (2), three (3), four (4), and five (5), and the polling place thereof shall be at the City Hall of said City of Menlo Park at No. 1080 El Camino Real in said City.

The polls will be open between the hours of 6:00 o'clock a. m. and 7:00 o'clock p. m.

The names of the election officers appointed for conducting the said election are as follows:

Luisa Aabel, Inspector.
Charles H. Holmes, Judge.
Zelpha L. Morris, Clerk.
Jessie A. Snover, Clerk.
Grace E. Cooper, Clerk.
Dated: February 25, 1930.

FANNIE I. KURTZ,
City Clerk.

First publication in Menlo Park Recorder February 28, 1930, last March 14, 1930, three times.

SAVINGS PASSBOOKS SOUGHT BY CROOKS

Use Them to Steal Money by Forged Slips — Should Be Guarded as Carefully as Cash.

Continual vigilance in safeguarding savings pass books, as well as blank and cancelled checks, against theft by crooks, who use this material in forgery operations, is urged on bank customers by James E. Baum, Deputy Manager of the American Bankers Association, in charge of its Protective Department. This department is continually vigilant in promoting means, both among bankers and the general public, to thwart the operation of bank crooks. It annually investigates hundreds of crimes against banks and is responsible for the majority of arrests among this class of criminals.

"In a large majority of cases of forgeries on checks or savings withdrawal orders investigated by the American Bankers Association, stolen blank checks or savings pass books were the forgers' chief stock in trade," Mr. Baum says. "In many instances the temptation presented through the careless handling by depositors of cancelled or blank checks or pass books so that they fell into the hands of others was the immediate stimulus for hitherto honest people to commit their first criminal offense."

Banks should educate their depositors to exert the same degree of care in handling these instruments and to avoid leaving them about unguarded as they exercise in respect to actual money because they represent money, he declares.

For dealing with the bank robbery situation, Mr. Baum recommends the use of electrical alarms actuated by any tampering with the wires or mechanism and also wider adoption of the plan of state police forces now employed in a few states, declaring that last year in seven eastern states where state police forces were maintained there were only 20 bank holdups as against 164 similar attacks perpetrated against banks in five states in the central and far west, where banks are denied the advantages of the speedy and coordinated action given by state-wide police forces.

"The records of the American Bankers Association Protective Department reveal that for many years the odds in favor of state police protection have been at least 8 to 1 when measured by the experience of banks in states where efficient police protection is missing in the rural districts," he says.

THE THINKER LEADS MODERN PROGRESS

By JOHN G. LONSDALE
President American Bankers Association

THE greatest need of the world today is interpreters of our times—modern Danieles in agriculture,

finance, politics, industry—who can see through the fog and haze that enshroud our difficult problems and advise, instruct, and influence those who are either indifferent or limited in their perceptions.

Through the thinker and the interpreter, unknown situations are disclosed or puzzling conditions explained in logical light. The American people are so constituted that they can meet and combat any situation once it is known and understood. It is the unknown that comes like the thief in the night and brings disaster.

Some one has defined prosperity as something the business men create for the politicians to take credit for. But America's present-day prosperity can be defined as a product resulting from the business man's ability to study and to interpret. Huge corporations maintain research staffs and special bureaus to interpret the times for them. Disaster looms in the offing for any industry that goes blithely on its way day after day without due regard to significant trends in trade and business.

Keeping Up With Change

Leaders of finance have discovered that they cannot remain passive in an age when all the rest of the world is in a transitional stage. The modern banker not only must know about the changing styles in other lines of business, but above all must be alert to the transformations which are taking place in his own. He must be a man of keener, broader vision, because the order of the day is for larger units of service. Mergers and consolidations have taken place in great numbers. We now talk of billions where a few years ago we talked of millions.

We have only begun our changes. What disposition is to be made of the many problems that they bring will depend in large measure upon our leaders, upon the students and the interpreters who can read accurately the signs of the times, so that we may base future actions and hopes upon their wisdom. The quickest way to go to the top is to go to the bottom of things, and let us hope that among them will be found many who will not only aspire to leadership but will be successful in reaching their goal.
